NEW ENGLAND TELEPHONE AND TELEGRAPH  
COMPANY D/B/A BELL ATLANTIC-MAINE  
Resale Agreement with North American  
Telecommunications Corporation

ORDER APPROVING  
RESALE AGREEMENT

WELCH, Chairman; NUGENT and HUNT, Commissioners

---

In this Order, we approve a resale agreement between New England Telephone and Telegraph Company d/b/a Bell Atlantic-Maine (Bell Atlantic) and North American Telecommunications Corporation (North American), pursuant to section 252 of the Telecommunications Act of 1996.

On April 14, 1998, 1998, Bell Atlantic filed a negotiated Resale Service Agreement with North American (including, as Attachment A, a document containing terms and conditions titled "6.1 Resale"), pursuant to 47 U.S.C. § 252 enacted by the Telecommunications Act of 1996. An agreement reached pursuant to that provision may allow a telecommunications carrier to purchase unbundled network elements, or local services at a discounted wholesale rate (the discount reflecting avoided cost), or both, from an incumbent local exchange carrier (ILEC) or competitive local exchange carrier (CLEC).

North American will pay to Bell Atlantic the discounted prices contained in the voluntary agreement that was reached pursuant to arms-length negotiations between the parties. The pricing standards contained in 47 U.S.C. § 252(d) apply only to arbitration proceedings under section 252(b) and not to negotiated agreements under section 252(a). Bell Atlantic does not represent that the prices contained in the Agreement are consistent with the section 252(d) pricing standards or with any other state or federal policy.

Section 252(e)(2) states that a state commission may reject a negotiated agreement only if it finds that "the agreement (or portion thereof) discriminates against a telecommunications carrier not a party to the agreement" or if "the implementation of such agreement or portion is not consistent with the public interest, convenience and necessity." We received no comments by the comment deadline set in an April 15, 1998 Notice of Agreement and Opportunity to Comment.

We cannot make either of the findings set in section 252(e)(2) for rejection, and we therefore approve the agreement. We qualify that approval in two respects, however, and reserve findings on future potential issues.

First, we reserve judgment on whether the rates contained in the agreement are reasonable from the perspective of Bell Atlantic's retail ratepayers. Bell Atlantic is presently under an alternative form of regulation (AFOR) ordered by the Commission in Docket No. 94-123. The AFOR began in December, 1995. Under the AFOR, Bell Atlantic bears the risk of lost revenues resulting from rates that are too low. However, at the end of the initial 5-year period of the AFOR, and in 2005 if the present AFOR is renewed, we may have occasion to review Bell Atlantic's earnings. We do not resolve whether Bell Atlantic is receiving reasonable compensation from any CLECs that may avail themselves of the rates provided to North American pursuant to 47 U.S.C. § 252(i) and, if they are not reasonable, whether we should impute revenues to Bell Atlantic.

Second, section 271(c) of the Act, 47 U.S.C. § 271(c), requires that the Bell Operating Companies (BOCs) meet certain requirements before they are allowed to provide interLATA service (the so-called "competitive checklist"). Under section 271(d)(3), the Federal Communications Commission (FCC) must determine whether the BOC has met the competitive checklist before granting the BOC authority to provide interLATA service within its region. Prior to making that determination, the FCC must consult with state commissions "in order to verify the compliance of the BOC with the checklist." Our approval of this Agreement should not be construed as a finding that Bell Atlantic has met those requirements.

The agreement filed by Bell Atlantic provides for resale of Bell Atlantic's services in Maine by North American. If North American seeks to interconnect with networks maintained by independent local exchange carriers in Maine, or to resell services offered by those carriers, it must seek a termination, suspension, or modification of the exemption contained in 47 U.S.C. 251(f)(1)(A).

35-A M.R.S.A. § 2105 requires us to find that the public convenience and necessity require another utility to serve where another utility is already authorized or is providing the same or similar service, before we grant approval under section 2102 for an additional public utility to provide service. 35-A M.R.S.A. § 304 requires that a utility must file rate schedules and terms and conditions prior to providing a service. The terms and conditions shall specify the areas in which the utility will actually provide originating and terminating local exchange

service, and may do so by reference to incumbent local exchange carrier exchanges rather than by municipalities.

**ORDERING PARAGRAPHS**

Accordingly, we

1. Approve the Interim Resale Service Agreement between New England Telephone and Telegraph Company d/b/a Bell Atlantic-Maine and North American Telecommunications Corporation, attached hereto, pursuant to 47 U.S.C. § 252(e);

2. Order that North American Telecommunications Corporation shall not provide local exchange telephone service until the Commission grants authority to North American Telecommunications Corporation to provide such service and until the Commission approves schedules of rates, terms and conditions for the provision of such service; and

3. Order that the Administrative Director shall make a copy of the attached Agreement available for public inspection and copying pursuant to 47 C.F.R. § 252(h) within 10 days of the date of this Order.

Dated at Augusta, Maine this 20th day of May, 1998.
